**Specialties**

- Project managing skill As a senior staff in Boxmagic Inc., I am in charge of managing team members who are copy writers, designers, programmers, and so on. I have to deal with clients and their time schedules. In order to do this properly, I was involved in recruiting resources and send out orders to vendors, too.
- Media planning/buying Carrying on clients' special needs with media, I was also experienced with planning and buying media which includes newspaper, radio, TV, billboards, and direct mail.
- Market research Being a senior staff in an advertising agency wasn't easy at all. To lead team members to the right direction of the most recent trend was the most important key factor of being a senior staff. Market researching skill must be combined to lead the team and clients to the success.
- Dealing with resource I had sufficient experience dealing with various resources which were printers, programmers, designers, suppliers and more. I am able to low the cost of operation and engage quality control.
